

WND National Telephone Survey 5-20-2013

It has been learned that the U.S. Department of Justice under the administration of Democrat Barack Obama secretly obtained confidential telephone records of many reporters of the Associated Press in Washington DC. Attorney General Eric Holder has said his department obtained the phone records without the permission or knowledge of the Associated Press in order to find who in the Federal government was leaking information about terrorist plots against America. AP officials have strongly protested this invasion of their privacy but the administration stands by its actions. Knowing this and anything else you may be aware of about this issue, do you agree or disagree that President Obama should be impeached over his handling of this situation?
