/// We are on BRAMA 4 Team. We believe Mama Sarah Obama is a very important witness to the BRAMA case and the missing link in this matter. On more than one occasion Mama Sarah Obama has been a hostile witness in our investigations.

She is either a pathological liar or trying to hide something from us because she says one thing now and retracts it the next day.

In particular on the birth certificate issue she has deliberately given us very conflicting answers. We therefore ask you to consider subpoenaing her to swear under oath before we embark on the next phase of the investigations. ///
