**Subject:** MFR Ch Kim preaching

On 17 Feb 2019, Ch Stephen Kim preached on the exclusivity of Christianity. Although it is in the scope of Christian doctrine, Ch Kim appeared to denigrate atheists and liberals.

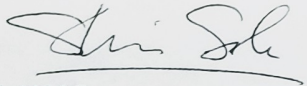

For atheist, he insinuated that asking the purpose of life contradicts their conviction of having no deity. For liberals, general critique is that Christians are unfairly criticized for voicing their belief, while eastern philosophy and religion free-pass.

His theory was that historically America had been Christian, yet something has gone awry in today's world.

He also seemed to mock being labeled a "Christian fundamentalist".

Very respectfully,
